US-1	Basic RPN Calculator	**1**	

User Story Description   Instructor

As an international accountant I need a simple RPN adding machine so that I can easily manage my clients books.

Acceptance Criteria

1: All values and operators are delimited by whitespace.

2: Accepts a continuous stream of values and operators.

3: Supports operations for sum, difference, division, multiplication.

4: Supports floating point operations.

5: Console input processed after every 'enter' key-press.

6: When an operator is read

- Output the list of all remaining values entered followed by the operator

- Perform the operation

- Display the resulting list of values awaiting further operators.
